Tuesday 3-9-21

Learning Goal: I will understand various aspects regarding the element of art, shape including the definition of shape, geometric and organic shapes, positive and negative shapes, and how shape can be used to draw representationally.

Daily Question: How can a negative shape become a positive shape?

AGENDA: How I will learn it?

Today is the last day to complete at least one of the positive and negative shape designs.

- Challenge: If you completed your final create a design using silhouettes from a movie or show that you like.

Week 8

How do I know I learned it?

When I can score at least a 3 on the scale

- 4 I can correctly complete this activity innovatively.
- 3 I can correctly complete this activity independently
- 2 I can correctly complete this activity using peers assistance
- 1 I can correctly complete this activity using teacher assistance

Announcements

In terms of grading, if you uploaded your assignment under the Make-Up Folder, remember that is the last folder I check. Current work takes precedence.

Regular Positive and Negative Space

Creative Positive and Negative Shape Final

How is this done?

By bringing the two images together and attaching one to the negative space.

Creative Positive and Negative Shape Sketches

In your sketchbook create two different sketches of a positive and negative design. The positive shape needs to be continuous line or shape. Have reason why you chose the images to combine. *Do not use an image from the internet, that is plagiarism.

Start by asking yourself the following questions:

1. What is a theme?
2. What two images that's associated with the theme?
3. Which image is the positive shape and what part of the image do you want to be connected to the negative space?

CHECKLIST FOR SUCCESS:

- At least 1 image that is the positive shape
- At least 1 image that is a part of the negative space
- Either the negative or positive shape should be continuous.
