Tuesday BELLWORK - Week 4

8/29/17

Using the paper in your sketchbook let's Analyze this work of art!

How did the artist organize this work of art using the Principles of Design? Choose 3 to explain.

The Starry Night is based on van Gogh's direct observations as well as his imagination, memories, and emotions. The steeple of the church, for example, resembles those common in his native Holland, not in France. The whirling **forms** in the sky, on the other hand, match published astronomical observations of clouds of dust and gas known as nebulae. At once balanced and expressive, the composition is structured by his ordered placement of the cypress, steeple, and central nebulae, while his countless short brushstrokes and thickly applied paint set its surface in roiling motion. Such a combination of visual contrasts was generated by an artist who found beauty and interest in the night, which, for him, was "much more alive and richly colored than the day."⁵
