

# **INTRODUCTION TO DESIGN PRINCIPLES**

## **MOVEMENT, BALANCE, UNITY, CONTRAST, EMPHASIS, LINE, AND COLOR**

# Design elements

- **Design elements** are the building blocks of graphics.
  - Line
  - Color
  - Shape
  - Texture

# Lines

- **Lines** can be straight or curved.
- How are lines used in the composition on this slide?

# Color definitions

- **Hue** is another word for color.
- **Chroma** is the intensity or purity of color.
- **Tint** is a color mixed with white.
- **Tone** is a color mixed with gray.
- **Shade** is a color mixed with black.
- **Brightness**: the quantity of light reaching a viewer's eye.

# Color and contrast

- Using color can enhance or detract from a composition.  
[www.lighthouse.org/color\\_contrast.htm](http://www.lighthouse.org/color_contrast.htm)
- Color wheels help determine which colors are in greatest contrast.

Use Adobe Kuler to try out new color schemes:

[kuler.adobe.com/](http://kuler.adobe.com/)

# Color wheels

- **Analogous colors** are adjacent to each other on the color wheel.
- **Complementary colors** are opposite each other on the color wheel.

# Color in design

- Use color to label or show hierarchy.
- Use color to represent or imitate reality.
- Use color to unify, separate, or emphasize.
- Use color to decorate.
- Use color consistently.

# Shapes

- **Shapes** are enclosed objects that can be created by line or created by color and value changes that define their edges.

# Texture

- **Texture** is the surface look of an object created by varying dark and light areas.
  - Roughness
  - Smoothness
  - Depth

# Design principles

- Design principles are ways in which elements are used together.
  - Movement
  - Balance
  - Emphasis
  - Unity

# Movement

- **Movement** is the use of lines, color, and repetition to create the illusion of motion.
- Curved forms or lines
- Repetition of geometric forms
- Fuzzy lines or outlines

# Lines

- **Lines** can indicate motion or direction.
- How are lines used in the composition on this slide?

# Balance

- **Balance** is the act of comparing or estimating two things, one against the other, and the contrast between:
  - Empty space (white space) and filled space
  - Text and images
  - Color and no colors and different colors
  - Textures against flat colors

# Balance in composition

- There are three different types of balance when using color, shape, and position:
  - Symmetry
  - Asymmetry
  - Radial symmetry

# Symmetrical or formal balance

- You can usually identify at least one of three **lines of symmetry**.
  - **Horizontal**
  - **Vertical**
  - **Diagonal**

# Symmetrical balance

# Examples of symmetrical balance

# Examples of asymmetrical balance

# Examples of radial balance

# Unity

- **Unity:** The correct balance of composition or color that produces a harmonious effect.
- What is the focus of the message?

# Emphasis

- **Emphasis:** To express with particular stress or force.
- What message is stressed here?

# Design Principles

- Balance is the act of comparing or estimating two things, one against the other
- Emphasis special attention / importance given to one part of the artwork, For example a dark shape in a light composition
- Proximity / Groups - objects near each other are seen as a unit

■

ALIGNMENT-Using typography to create relationships between similar kinds of information.

SCALE- The relationship between two objects with respect to size, number, and so on

# Design Principles

- **WHITE SPACE**-many times referred to as negative space, is the portion of a page left unmarked, the portion that is left blank, or the empty space in a page

**REPETITION**- refers to one object or shape repeated; pattern is a combination of elements or shapes repeated in a recurring and regular arrangement

**COLOR**- is the element of art that is produced when light, striking an object, is reflected back to the eye

**TYPOGRAPHY**-**the art or process of printing with type.**

# Summary

- The basis of good design is use of design elements and their thoughtful application in the form of design principles.
- Clearly identify what you are trying to accomplish — use design to convey your message.
- Brainstorm alternatives.
