### 3rd Box:

#### Composition Example: Converging Lines

A road or path gets smaller as it nears the horizon line. This type of composition creates an extreme illusion of depth and distance, making the eye and the imagination search for more.

### 4th Box:

One point perspective creates a converging-lines composition. The walkway creates an extreme upside-down V shape. These lines come together and meet at a common point along the horizon line. the converging composition pulls you into the picture, making you imagine what is there beyond the horizon line.
