# Project Reflection Example

My process in making my project was that I started with get pictures and positioning them in different angles then I sketch them out. After I sketched all of them out I chose one to make it my final project. I decided to do these shoes because these shoes played a big role of my life when my birthday came. These shoes reminded me that I went from a girl to a woman. Although I didn't fill the entire page up I still think I should have a better grade for example I incorporated the elements and principles of art which play a big part in art because without it how will you know what I used and what I did. I followed directions had craftsmanship had a theme and put different techniques too. In total I should get an 84.  $15+15+20+17+17=84/100$
